PROFESSIONAL SUMMARY

Product & UI/UX Designer with around 6 years of experience designing responsive web and mobile products across SaaS, fintech, enterprise, consumer insights, real estate, IoT, and e-learning. Experienced in taking products from discovery and research through user flows, wireframes, high-fidelity UI, prototyping, design systems, usability testing, and developer handoff. I leverage Generative AI to accelerate research, ideation, workflow exploration, content refinement, and design iterations while keeping human-centered design at the core. I enjoy simplifying complex workflows into intuitive, scalable experiences while collaborating closely with product, business, development, QA, and marketing teams.

SKILLS

Product Design & Strategy

Product Design, UI/UX Design, Web Design, iOS & Android App Design, Interaction & Visual Design, UX Strategy, Human-Centered Design, Design Systems, User Flows & Journey Mapping, Information Architecture, Wireframing & Prototyping, Responsive & Mobile-First Design, Accessibility Design, WCAG, Heuristic Evaluation, UX Research & Usability Testing, Design Thinking, A/B Testing, Stakeholder & Cross-functional Collaboration, Product Strategy & Lifecycle Management, Requirement Gathering, Design Handoff, Client & Marketing Collaboration, Agile/Scrum, Problem Solving

AI & AI-Assisted Design

Generative AI, UX Research, AI Ideation, Prompt Engineering, AI Prototyping, Workflow Optimization, Content Generation, Design Automation, Vibe Coding

Tools & Technologies

Figma, Adobe XD, Adobe Illustrator, Adobe Photoshop, After Effects, Adobe Stock, Sketch, Miro, Lucidchart, Canva, Maze, Jira, Confluence, Azure DevOps, HTML5, CSS3

EXPERIENCE

UI/UX Designer

Sep 2025 - Present

Numerator

Pune, India

- Led end-to-end **product design** across **6+ web and mobile projects**, delivering user flows, wireframes, high-fidelity UI designs, interactive prototypes, and scalable design systems.
- Partnered with **product owners, stakeholders, marketing, development, and QA teams** to translate business requirements into user-centered product strategies and experiences.
- Designed responsive experiences for **survey-based and consumer insights products**, ensuring usability, accessibility, visual consistency, and cross-platform design standards.
- Applied **Generative AI** for UX research, ideation, workflow exploration, content generation, and design iteration to improve design efficiency and accelerate prototyping.
- Conducted **usability testing, UI testing, A/B testing, and design reviews**, incorporating user feedback and product insights into iterative design improvements.

UI/UX Designer

Feb 2025 - Aug 2025

Humancloud

Pune, Maharashtra

- Led end-to-end **Product design** across **5+ web and mobile projects**, from requirement gathering and UX research through wireframing, high-fidelity UI, prototyping, and final design handoff.
- Collaborated with **clients, product teams, developers, and QA** to understand business requirements, define product strategies, present design solutions, and iterate based on feedback.

- Designed scalable experiences using **user journeys, information architecture, wireframes, prototypes, and design systems**, with a focus on usability, accessibility, and consistency.
- Used **Generative AI** for UX research, ideation, content exploration, and workflow analysis to improve design efficiency and evaluate alternative solutions.
- Partnered with development and QA teams to ensure **design accuracy, responsive implementation, and seamless design handoff** across platforms.
- Led an **internal platform redesign**, improving UI consistency and overall user experience through reusable design patterns and design standards.

Software Engineer - Senior Software Engineer

Capgemini

Oct 2021 - Nov 2024

Pune, Maharashtra

- Delivered end-to-end **UI/UX solutions** for enterprise clients including **HSBC and Barclays**, creating user flows, wireframes, high-fidelity mockups, and interactive prototypes using **Figma, Adobe XD, and Miro**.
- Collaborated with **cross-functional teams and enterprise stakeholders** to translate business requirements into intuitive, scalable, and user-centered digital experiences.
- Applied **UX research, journey mapping, usability testing, Generative AI, and design ideation** to identify user needs, explore solutions, and improve overall product usability.
- Created **responsive and accessible designs aligned with WCAG guidelines**, ensuring consistent user experiences across web and multiple devices.
- Converted design concepts into functional, responsive web interfaces using **HTML5, CSS3, and JavaScript**, bridging design and development and improving implementation accuracy.
- Conducted **usability testing, design reviews, and brainstorming sessions**, incorporating feedback to continuously improve UI/UX solutions.

Analyst

ICICI Bank

Jan 2021 - Aug 2021

Hyderabad, Telangana

- Executed **manual test cases** to validate software functionality, UI consistency, and usability.
- Performed **UI testing** to identify usability and interface issues and ensure adherence to expected design and functional requirements.
- Performed **API testing using Postman** to validate API responses and application functionality.

EDUCATION & CERTIFICATIONS

B.Tech in Computer Science, Biju Patnaik University of Technology (BPUT)

2016 - 2020

Interaction Design Foundation (IxDF) : [\(Certificate\)](#)

Google Professional Collaboration Engineer (Google) : [\(Certificate\)](#)

Accenture (Digital Skills UX) & UI/UX Workshop Growthchool : [\(Certificate\)](#)

Introduction to Web Development (IBM) : [\(Certificate\)](#)
